

After finding my perfect home I needed to move quickly and have a building inspection done before I could proceed further. Chris from Abode Building Inspections was recommended to me and I am so thankful that I used Chris to do the inspection. Chris liaised immediately with the agent to gain access and spent considerable time checking out my house and giving me a detailed verbal report that day. There were issues accessing the roof cavity and Chris returned some days later at no extra cost to me to inspect the roof. Shortly afterwards I received a comprehensive written report on my house.

I have phoned Chris to ask him further questions about my property and have found him to be knowledgeable and helpful. I would happily recommend Chris at Abode Building Inspections to all home buyers.
